

INTRODUCTION

Determination of environmental aspects is a key element in ISO 14001 Environmental Management System (EMS). Understanding environmental aspects helps organizations identify necessary controls to minimize environmental impact and improve overall environmental performance.

OBJECTIVE

Participants will be benefit by being able to:

- Determine environmental aspects of activities, products and services using a practical approach
- Identify and evaluate significant environmental aspects
- Understand compliance obligations related to environmental aspects
- Link environmental aspects to risks and opportunities
- Apply control measures with organizational processes

COURSE CONTENTS

Introduction

- Introduction to ISO 14001 : 2015
- Environmental Aspect and Impact Concepts
- Scope and introduction according to ISO 14001 : 2015
- Roles and Responsibilities

Aspect Identification

- Identification of Environmental Aspects and Impacts
- Environmental Aspect and Impact Register
- Life Cycle Perspective in EMS

Risk & Control

- Risk evaluating methodology
- Determining significant environmental aspects
- Environmental aspect and impact register
- Control measures and mitigation actions

Application

- Compliance obligations and requirements
- Linking aspects to risks and opportunities
- Group discussion and presentation
- Quiz

CERTIFICATION

Certificate of Attendance

TARGET GROUP

- Leader
- Production Manager
- Supervisor
- * **Maximum 25 pax per group**
- Head of Department
- Safety Committee Members
- ISO 14001 steering committee members
